

RAMI METRY

Senior Web Developer | Fintech & E-Commerce Platforms Specialist

Qattine, Lebanon • +961 71 935 698 • ramimetry2018@gmail.com

PROFESSIONAL SUMMARY

Senior Web Developer with 4+ years of experience designing and delivering production-grade web platforms across fintech and e-commerce. Built digital wallets, reconciliation systems, and multi-tenant payment gateways, and led the web development of Buitanda, a high-traffic online retail marketplace serving the Angolan market. Proven ability to own complete web applications from architecture to deployment, with strong expertise in React, Next.js, Vite, Node.js, and TypeScript, and deep experience in financial dashboards, role-based access control (RBAC), real-time transaction systems, e-commerce storefronts, and scalable multi-tenant architectures.

CORE EXPERTISE

Fintech Platform Development • E-Commerce Storefronts • Digital Wallet Systems • Multi-Tenant Architectures • Financial Dashboards • Role-Based Access Control (RBAC) • Real-Time Transaction Systems • Performance Optimization • Secure API Integration • System Design

Roles: Senior Web Developer • Frontend Architect • Fintech Systems Developer • Dashboard Systems Engineer

EXPERIENCE

Web Developer — FinVerseAI, Cyprus

Jan 2025 – Present

- Architect and lead frontend development for the Mojo Fintech Wallet (Admin Back-office and Agent dashboards).
- Built a full Online Reconciliation Platform for financial record matching and discrepancy resolution.
- Developed a Multi-Tenant Payment Gateway Dashboard with tenant isolation and a scalable architecture.
- Designed and implemented RBAC across multiple financial systems, and partnered with backend and product teams to translate complex financial workflows into scalable UI systems.

Web Developer — Cryptoware.me

Jan 2022 – Jan 2025

- Led development of the EVO Wallet Admin Dashboard for a fintech digital wallet platform.
- Built secure transaction ledger interfaces and settlement management tools.
- Developed applications using React, Next.js, Node.js, and TypeScript.
- Integrated Web3 technologies including wallet connectivity and smart-contract interactions.
- Designed a scalable component architecture and improved overall application performance, with secure API integrations across financial workflows.

KEY PROJECTS

Buitanda — Lead Web Developer *(React.js, Next.js, Node.js, TypeScript)*

Online retail marketplace serving Angola, offering electronics, smartphones, furniture, and home appliances with fast nationwide delivery. Led the web development from storefront and product catalog through cart and checkout. Live at Buitanda.com.

Foothills *(React.js, Node.js)*

Web application for a US-based facility management company, streamlining facility management, maintenance task tracking, and partner coordination.

OasisX *(React.js, Node.js, Web3.js)*

NFT marketplace aimed at simplifying digital asset ownership for creators, brands, and artists.
